

ENVIRONMENTAL POLICY

This document details the Company policy for the implementation of good environmental practices.

Objectives

- 1 To minimise the effect that the Company's activities have on the environment.
- 2 To ensure that wherever possible resources are managed efficiently and all waste is reduced.
- 3 To ensure that where possible resources used by the Company are recyclable and sustainable.

Policy

- 1 To consider all Company activities in terms of their effect on the environment.
- 2 To implement controls and measures that are appropriate to assess the risks and the effects the Company activities have on the environment.
- 3 Wherever possible to set key performance targets and objectives and monitor the Company's performance and compliance.
- 4 To ensure that all staff are sufficiently trained and made aware of the Company's commitments and communicate all instances where performance could be improved.

Commitment

- 1 The Company shall comply with all environmental policy requirements of its customers
- 2 The Company shall continually review its environmental performance with the objective of continual improvement.
- 3 The Company shall take all reasonable practical steps to prevent polluting the environment.
- 4 The Company shall comply with all environmental legislation.
